

ABSTRACT

INDOLE DERIVATIVES

Compounds are disclosed of formula (I)

✓5 wherein

10 P0  $\text{R}_1$  represents H or  $\text{C}_{1-6}$  alkyl;

$\text{R}_2$  represents H or  $\text{C}_{1-6}$  alkyl;

$\text{R}_3$  represents H;

$\text{R}_4$  represents H or  $\text{C}_{1-3}$  alkyl;

and pharmaceutically acceptable salts and solvates (for example  
15 hydrates) thereof.

PA The compounds are indicated as useful for the treatment of  
migraine, cluster headache, chronic paroxysmal hemicrania and headache  
associated with vascular disorders.

PA Processes and intermediates for their preparation and  
20 pharmaceutical compositions containing them are also disclosed.
